Stefan Joselowitz reiterates, “I am proud of the great company we have built since I founded MiX Telematics in 1996. My stake in the company currently represents a significant portion of my investment portfolio and I have reached a stage of life where I need to create some liquidity to partially diversify my investments and begin thinking about estate planning. MiX will continue to be the main component of my investment portfolio once this selling program is completed and I will still be one of the company’s largest shareholders. I am very excited about the future of MiX Telematics and remain focused on executing on our strategic priorities to generate additional value for all shareholders.”
